

S3 RTO & Resources industry trends & discussions

Tutis User Advisory Forum Webinar 2017

# Presentation Overview

- Introduce the Resources Training Council (History)
- Industry Overview
- Evolution of training delivery within the sector
- RTC White Paper
- TAE Enterprise Skills Set - an Industry Perspective

# Resources Training Council

- Resources Training Council is a not-for-profit association funded solely by our members. We share leading practice, encourage innovation and drive operational improvements, efficiencies and effectiveness to ensure that the industry has **safe, productive workers**.
- Our network shares close links to government at all levels, industry regulators and groups, service providers, and enterprises involved in the coal, metalliferous, extractive quarries, drilling and civil construction industries

# Resources Training Council - History

- Resources Registered Training Organisation Association (RRTOA)
- Resources Industry Skills Association (RISA)
- Resources Training Council (RTC)

# Industry Overview

- Commodity Prices are Recovering
- Brown Field Expansions rather than Green Field Development
- A Rise in Smaller Players as Larger Companies Sell off Assets
- A much Larger Contractor Workforce
- With regards to training – we need to learn the lessons of the past

# Evolution of Training in the Sector

- 2001 legislation “Mandating” Units of Competence
- Dash for Statements of Attainment driven by Compliance
- Enter RRTOA in 2012

# RTC White Paper

- Certificate III Guarantee Funding Model
- Specifically the Certificate III in Surface Extraction
- White Paper
  - Qld Training Ombudsman, Review/Investigation
  - DET / Skilling Qld looking at new funding model

# TAE Enterprise Skill Set

- Not Fit for Purpose
- Industry may “Go it Alone”
- PwC looking to consult and develop a more specific Skills Set

# THANK YOU
